National Science Day Celebration - 2020

National Science Day was organized by Science Association of the college on 28th February 2020 at 10.00 a.m. in Department of Zoology. Prof. Balasaheb Khedkar gave introduction of the function. He said that the ***National Science Day*** is celebrated on 28 February each year to mark the discovery of the Raman Effect by Indian physicist Sir Chandrashekhara Venkata Raman on 28 February 1928. For his discovery, Sir C.V. Raman was awarded the Nobel Prize in Physics in 1930. National Science Day is being celebrated every year to widely spread a message about the Importance of science used in the daily life of the people. To display all the activities, efforts and achievements in the field of science for human welfare. It is the main science function of India. The objective of this day is to discuss all the issues and implement new technologies for the development in the field of science. The theme for 2020 is that woman in Science. To encourage the people as well as popularize the Science and Technology. The Chief Guest for the function is Dr. M.J. Pondhe from Padmashri Vikhe Patil College of Arts Science and Commerce, Loni(Bk), Tal:Rahata, Dist:Ahmednagar.

In this Dr. Dandawate R.R. gave brief introduction of the chief guest of the function. In his speech Dr. M.J. Pondhe gave detail information and importance of waste management. He said that it needs to be practiced because the entire population's health and protection depend on it. Another reason is that this is a good way to execute waste recycling management – through recycling; wastes will be reduced and can lessen the need for land filling. Aside from that, recycling can also decrease the cost production and it can help in keeping natural resources. Students can do research projects to produce best and useful things from waste.

In presidential address Dr. S.L. Laware guided our students. For this function about 47 students were present. In the last session Prof. S.Z. Fakir has express vote of thanks.
