Date14th October 2019

Introduction : One day workshop on 'Problem Solving, Design Thinking and Ideation' was conducted to imbibe and inculcate the skills of problem solving ,design thinking and ideation as an opportunity among the interested students and faculty members as well.

Details of Activity :One day workshop on 'Problem Solving, Design Thinking and Ideation'was organised on 14th October 2019 at Seminar Hall. Dr. Mahavirsing Chouhan ,Associate Professor, Soil Dept. M.P.K.V.Rahuri and Dr. Mamta S.Patwardhan ,Asst. Professor ,Dept. of Electrical Engineering, Dr. Annasaheb Shinde Krishi Abiyantriki and Techonology,M.P.K.V.Rahuri were the resource persons.

Dr. R.R.Dandwate introduced the aim and objective of the workshop.Mr. B.G.Khedkar introduced the chief guests and Prin.Dr. S.L.Laware felicitated the chief guests and presided over the opening ceremony of the workshop.

Dr. Mahavirsing Chouhan dealt with the concept of 'and the Ideation and Problem solving'.In a real sense, science is the solution to each and every problem. Science helps human being in upbringing new ideas day by day for the betterment of human beings. Any research or invention is born the mind of human being. Then there would be an incarnation in the form of startup. Therefore ideation is important for any research.

Dr. Mamta S. Patwardhan dealt with design thinking. Any design of machine model is born in the mind of human being. Thinking is the cause of any ideation . So we should design thinking in a proper way and right direction .She appealed the Students to be innovative and hardworking. She appreciated the efforts of students adopting start-ups and innovative projects.

Dr.R.R.Dandwate expressed vote of thanks. Total 10 faculty members and 50 students actively participated in the workshop.
